POWER FLOW

WATER FILTRATION SYSTEM

CLEAN, SAFE WATER FROM ANY LAKE OR STREAM

Engineered for the rugged outdoor adventurer, the Clearsource Nomad pulls water from any lake or stream and purifies it better than even the best portable survival filters. Drink, shower, clean up – whatever you want with unlimited clean, fresh water!

STRONG 15 AMP PUMP DRAWS WATER FROM LONG DISTANCES

The integrated pump pulls hard – easily drawing water up to 20' of elevation rise and distances up to 100'. Works with any twelve-volt battery.

NASA-DERIVED FILTER TECHNOLOGY DELIVERS CLEAN, SAFE, GREAT-TASTING WATER

Dual filters remove sediment, chlorine, volatile organic compounds, bacteria like Legionella, Salmonella, Cholera, and E. Coli, cysts like Giardia, viruses and other contaminants while dramatically improving taste and smell. The Clearsource Nomad also provides heavy metal protection against lead, manganese, and iron.

BULLET-PROOF CONSTRUCTION

Engineered with a rugged chassis made from powder-coated steel, heavy-duty electrical components, a safety protected on/off switch, and built-in attachment points for permanent mounting.

SPECIFICATIONS

Width: 23 Inches | Height: 17.5 Inches | Depth: 9 Inches | Weight: 30 Pounds | Flow Rate: 4.9 Gallons per Minute
