

# **NXG FRAME**

*The Next Generation in RV Frame Technology*

The NXG Frame is a superior quality, highly engineered frame that provides customers with a strong, light weight, consistent foundation on which to build.

## **ELIMINATES:**

- Frame failures due to sub-standard steel
- Construction issues caused by improperly placed components
- Uneven main rails - varying camber
- Corrosion caused by incomplete coverage due to painting of stacked frame Assemblies
- Paint failures caused by inadequately washed components

## **KEY FEATURES:**

- Constructed with HSLA - High Strength Low Alloy Prime Steel with specifically controlled properties.
- Designed to accommodate both fifth wheel and travel trailer configurations.
- CNC controlled rail fabrication allows placement of components precisely where the manufacturer wants them.
- Manual welding is minimized. Common components are robotically welded for consistent quality.
- All fastened components are joined with Huck® fasteners. Huck® fasteners provide consistent clamp load.
- CNC controlled camber.
